New business

LS opined and had some complaints about many dog droppings in CHP.
We have had this issue before and are open to suggestions about how to stop or improve.

LS has received many complaints about the position of the new horse jump. It seems it was placed right in the middle of a walking trail. It was agreed to look at placement and if it indeed is bad to request that it be moved to another location.

It was also discussed that placement should be brought before committee first in future additions.
